ABSTRACT

This report, based on late 1968 and 1969 photography, updates the previous Basic Imagery Interpretation Briefs and Reports on 15 of the 16 major electric power plants in Liaoning Province, northeast China. The sixteenth plant, the Supung-dong Hydro Power Plant, has not been seen on interpretable photography since the previous report. The cutoff date for information in this report is September 1969.

Since 1968, a double-unit boiler has been installed and was seen operating at the Shen-yang Thermal Power Plant Tieh-hsi. Two cooling towers were removed from the Chin-chou plant between November 1967 and September 1968. No construction or dismantling has been observed at the other 13 plants since the previous reports.

On the latest photographic coverage, 11 of the plants were observed in operation. The Shen-yang Thermal Power Plant Northeast and the Chin-chou plant did not appear to be in operation. The Kai-yuan plant was not completed and appeared to be inactive. The Fu-shun Dam and Hydro Power Plant appeared to be operating in August but not in November 1968 when it was last observed.

## INTRODUCTION

This report presents information on the current status of 15 of the major electric power plants in Liaoning Province and describes any changes since the previous reports.

The following list of the major electric power plants in Liaoning Province is keyed to Figure 1.

1. An-shan Heat and Thermal Power Plant Steel Plant.
2. Chin-chou Thermal Power Plant Synthetic Fuels Plant.
3. Fou-hsin Thermal Power Plant.
4. Fu-shun Dam and Hydro Power Plant Ta-huo-fang.
5. Fu-shun Heat and Thermal Power Plant Liao-ning.
6. Fu-shun Thermal Power Plant Shale Oil Plant No. 2.
7. Fu-shun Thermal Power Plant Tai-kan-ton.
8. Huan-jen Hydro Power Plant Hun-chiang.
9. Kai-yuan Thermal Power Plant Ching-ho.
10. Lu-ta (Dairen) Thermal Power Plant No. 1 Amanogawa.
11. Lu-ta Heat and Thermal Power Plant No. 2 Kan-ching-tzu.
12. Pen-chi Heat and Thermal Power Plant No. 3 Steel Plant.
13. Pen-chi Thermal Power Plant No. 2 Steel Plant.
14. Shen-yang Thermal Power Plant Northeast.
15. Shen-yang Thermal Power Plant Tieh-hsi.
16. Supung-dong Hydro Power Plant and Dam Suiho.

**BASIC DESCRIPTION**

There has been no construction at the Chin-chou Thermal Power Plant since November 1967, the date of the latest photography used in the previous report. The partially completed southern section of the boilerhouse remained unchanged. Between November 1967 and September 1968 the two remaining cooling towers were removed, but the plant is still considered to be operational.

The plant was not in operation when observed in September 1968 or May 1969. No smoke or other vapors were seen emanating from the plant. It was last observed in operation in January 1965.

## BASIC DESCRIPTION

No changes have been observed at the Fu-shun Dam and Hydro Power Plant Ta-huo-fang since February 1968, the date of the latest photography used in the previous report.

The plant appeared to be in operation in August 1968. Water turbulence was observed in the tailrace. In November 1968 the plant was inactive as evidenced by the absence of water in the tailrace.

## BASIC DESCRIPTION

No changes have been observed at the Fu-shun Heat and Thermal Power Plant Liao-ning since February 1968, the date of the latest photography used in the previous report.

The plant was operating in November 1968. Heavy smoke was observed emanating from at least two of the three stacks.
